

# Mauricio Allende

Front-end Engineer | UX/UI Designer

Santiago, Chile

[hi@mallendeo.com](mailto:hi@mallendeo.com)

## Work Experience

### Web UI Developer - Globant - 2019 - 2020

- Worked with the Ancillaries Team redesigning from scratch the LATAM seat selection experience.
- Build components and make changes to the LATAM native app.

Tech: **React Native, Next.JS, React Hooks, Node**

---

### Full Stack Developer - AcidLabs - 2019

- Develop new features and add performance improvements for Abcdin's app.
- Optimize Abcdin's kiosk server response time, making the loading time up to 80% faster.

Tech: **React Native, React, Redux**

---

### Full Stack Developer – Reign Design (now Apply Digital) – 2018

- Development of an insurance web app in production for a large retail client (Falabella).

Tech: **Angular 4+, Node**

---

### Software Developer – Pleno (Santillana) – 2017

- Made a multi-platform app for students to take offline tests, with a real-time admin dashboard.

Tech: **Electron, Express, WebSockets, Angular 4**

## Work Experience

### Software Developer – Frankenstudio – 2014 - 2015

- Developed an interactive showcase app for Pontificia Universidad Católica de Chile.
- Created a video recording app with green screen effect for Minera Los Pelambres.

Tech: **NW.JS, Node, CakePHP, jQuery**

---
